

ARTIST Sponsorship Program

As ACTivate :artists with purpose moves forward we intend to make our programming more accessible.

We believe that there are young artists in our community that lack the exposure and resources to quality performing arts education.

In addition to providing sponsorships for our company members, the Artist Sponsorship Program will provide the resources needed to launch new outreach initiatives that we are dreaming up. These initiatives include cross peer mentoring through drama, dance, and music with some of our more advanced company members in elementary schools, bringing immersive summer productions and theatre experiences into underserved communities, and to continue to diversify our storytelling by creating community partnerships.
